Invited contributions that exceed two pages in length are encouraged to provide a concise and descriptive abstract of the contribution. At vero eos et accusamus et iusto odio dignissimos ducimus qui blanditiis praesentium voluptatum deleniti atque corrupti quos dolores et quas molestias excepturi sint occaecati cupiditate non provident, similique sunt in culpa qui officia deserunt mollitia animi, id est laborum et dolorum fuga. Et harum quidem rerum facilis est et expedita distinctio.

All interested participants are invited to present the latest results of their scientific work in one of the ESCAMPIG subject areas. The deadline for abstract submission is February 28, 2024. Notifications of the acceptance or rejection of the contributions will be distributed no later than April 5, 2024. However, in order to get a fast response from the International Scientific Committee on the final decision, early submission is highly encouraged. Contributed, full-length abstracts must be written in English and should report previously unpublished work. The authors are responsible for both the content and style of their contributions. No editing or re-typing will be carried out by the conference organizers, and accepted contributions will be reproduced without reduction or modification. Contributions that do not conform to the format of the template may be rejected. Each contributed abstract must be submitted as a pdf file. A docx template and a Latex template file are available for download. In order to have an abstract published in the conference proceedings, at least one of the authors must have paid the registration fee by June 30, 2024. Abstracts should be in single column A4 layout, with a maximum of 2 pages for contributed abstracts, and 4 for invited abstracts (including references and figures). Please re-check that the correct topic number is placed on the top right-hand corner of the first page.
